This will provide security updates until the next ESR update in July 2021, after which the affected users will no longer receive security updates.. Unsupported operating systems do not receive security updates, have known exploits and can be dangerous to use, which makes it difficult to maintain Firefox on those versions.. 0 ESR If you use an old version of OS X, see these articles for more information: Firefox support has ended for Mac OS X 10.. The last security update applicable to OS X 10 11 was made available in July 2018.. We want to hear your feedback about Firefox Please join us in the Firefox forums, hosted by MozillaZine.

What's NewHere's what's new in this release of Firefox:New Default Theme An updated Default Theme now presents a uniform appearance across all three platforms - a new crisp, clear look for Windows users.. While Apple does not have a public policy governing security updates for older OS X releases, their ongoing practice has been to support the most recent three releases.
